ATHLETIC ELIGIBILITY

In order to be eligible for participation in Interscholastic Athletics, students must meet the following expectations:

"Good academic standing" shall be according to the standard of a passing grade of 70 or above in each academic subject and a "satisfactory" designation in all non-academic subjects. Those failing to achieve these standards will be suspended from eligibility for interscholastic participation.

Each week, a list of pre-high students failing to maintain a cumulative grade of 70 or better, in one or more classes, will be developed by the school guidance counselor. This list will be referred to as the "Academically Ineligible" (AI) list.

Students listed on the AI will be suspended from extra-curricular activity from the day after the list is published until they are no longer listed.
(A minimum of four school days).

All students participating in sports programs are required by state law to have a physical examination before being permitted to participate in any sports activities. (Physicals may be conducted by our school doctor or personal physician.)

A medical history questionnaire and parental permissions must be completed by the parent or legal guardian prior to student's participation.

Students may not participate in any school scheduled sports activities on the days when they are absent from a full day of school. Students may not start a game on any day they have served Central Detention.

Any pupil who is unable to participate in his or her scheduled physical education class because of medical reasons may not participate in any school sport activity or recess on that day.

Inappropriate behavior or language at any time during the school day, unsportsmanlike conduct, or unexcused absences from sports activities may result in a student being ineligible to participate in school sports activities. Supervising personnel may take initial action in such matters, subject to ultimate decision by the Superintendent.
