

Manasquan School District

*Summer Warrior
Academy*

A program for in-coming 9th graders

Summer Warrior Academy

The Summer Warrior Academy is designed for in-coming 9th grade students to share an enriching, dynamic classroom experience with our Manasquan High School teachers as they prepare for the exciting transition into high school. Students will challenge themselves with subject-based projects and activities, all while interacting with the MHS staff and experiencing the Manasquan Warrior experience for the first time. Enrichment classes in English, Math and Science will also focus on study skills and specific techniques and tips for students to be successful as they enter their freshman year in September. Students will also have the opportunity to tour the high school and meet Principal Goodall and our Guidance Counselors.

English

Students will participate in dynamic reading and writing activities with our 9th grade English teachers.

Activities will include reading circles, creative/analytic writing and rich, literature-based classroom discussions. Teachers will also provide direction and key tips on study skills and strategies so as to prepare students for the transition to the high school English class experience.

Algebra

This program will focus on the reinforcement and enrichment of core concepts and standards studied in 8th grade math with the purpose of preparing students for high school Algebra.

Science

Incoming 9th graders will be introduced to the MHS Science Labs and will engage with teachers in a lab setting where inquiry and exploration will be the main focus. Students will be introduced to key concepts in Biology and participate in project-based, “mini-lab” activities with an MHS Biology teacher.

Program Schedule

The Summer Warrior Academy will run on Tuesdays and Thursdays, from August 2nd - August 18th. All classes will be held in Manasquan High School.

Transportation must be provided by parents.

TUESDAY & THURSDAY

English 8:30am-9:30am

Math 9:45am-10:45am

Science 11:00am-12:00pm

Total 6 sessions for each English, Math and Science

The deadline to register is Monday, June 20, 2022
